

Provincial Ranking System

BOCCIA

OVERVIEW

The Provincial Boccia Provincial Ranking System is used to rank athletes based on their results at Ontario Boccia sanctioned competitions. Rankings support several functions within Ontario’s boccia system, including:

- Seeding athletes in provincial competitions
- Supporting athlete identification within provincial high performance pathway
- Informing selection considerations for Team Ontario and other program opportunities

The ranking system reflects athlete performance across recognized competitions and aligns with the broader High Performance Pathway and development framework.

Ranking Competitions and Points Allocation

Points are awarded based on final placement at designated Ontario Boccia sanctioned competitions.

Boccia Blast & Ontario ParaSport Games		Ontario Boccia Championships	
Placing	Points	Placing	Points
1	10	1	14
2	8	2	12
3	6	3	10
4	5	4	8
5	4	5	6
6	3	6	4
7	2	7	2
8	1	8	1

Ranking Period and Point Calculation

The provincial ranking system operates on a one (1) year cycle aligned with the competitive season and calculates results across two (2) seasons.

- Results from the current or most recent season receive full point value as indicated above.
- Results from the previous season are weighted at 50% of the full value

Example

If an athlete finishes 1st place in both seasons:

- Prior season: 5 points (1/2 of 10)
- Current season: 10 points

Total ranking points = 15

Bi-Annual Events

Where an event is held on a bi-annual basis, the following approach is applied:

- The event results received full point value in the season in which it occurs
- The result carries forward into the following season at 50% of the original value

Tie-Breaking Procedure

In the event that two or more athletes are tied in the provincial rankings, the athlete with the higher placing at the most recent Ontario Boccia Championships will receive the higher ranking.
